

February is Heart Month Meet Your Heart Care Team

DR. RAGHAVA GOLLAPUDI

What is your specialty?

Interventional cardiology. I perform minimally invasive procedures that can clear blocked arteries, correct heart abnormalities and repair heart valves.

What is your number one heart-health tip?

Daily exercise.

What is one thing that you want your patients to know about you?

Patients often ask how I stay healthy. I exercise regularly, eat healthy and indulge occasionally.

Why did you decide to become a doctor?

I wanted to help solve complex problems for patients and ultimately help them live better and longer lives.
